# SAKOM 120 6x4

The SAKOM range of trucks were used by the South African Military over a number of years as logistical vehicles.

Now available to the Private Sector, they continue to excel, and are widely recognised as being some of the best and most resilient heavy-duty trucks available.

## Key Features

The SAKOM 120 is a premium quality, 13 ton, 6x4 truck. Powered by the Deutz V8 engine, it shares many similarities with the Samil range.

It is an easy-to-maintain, robust truck which is in use in many roles within Construction and Mining companies daily. When all 3 diff locks are actuated on the rear bogey, then all 4 wheels turn in unison providing traction approaching that of a 6x6 truck.

## Key Specifications

### Engine

- Deutz F8L 413F(V8) - Air Cooled

### Gearbox

- ZF S6-90 – 6 Speed Synchronmesh

### Rear Axle Bogey

- Diff Lock on each axle & between axles

### Steering

- Power Assisted

### Suspension

- Leaf springs

### Cab configuration

- Driver + 2 assistants

### Tyre size

- 1100 x 20 (Std), 1400 x 20 (Optional)

For the comprehensive specifications please visit our web site: [www.samiltrucks.co.za](http://www.samiltrucks.co.za)

Specifications are subject to change without prior notice.

- **Re-manufactured in our factory**

The truck is stripped down to the chassis then rebuilt using only new or reconditioned components.

- **Proven across Southern Africa**

The SAKOM 120 can carry a payload of around 13 tons, and is in use across many roles in Southern Africa.

- **Multiple applications**

The most common load bodies fitted are: Tanker, Tipper, Drop-side (with or without Crane), Drill Rig & Compressor.

- **Amazing traction for a 6x4 truck**

When the 3 diff locks are actuated on the rear bogey then all 4 rear wheels turn in unison, making it perform like an AWD.

- **Supply of spares guaranteed**

Our "in-house" spares division "**Black & White Truck Spares cc**" specialises in the supply of all spares for the SAMIL / SAKOM / SAMAG family of trucks.
