SAMAG 120 6x4

The SAMAG range of trucks were used by the South African Military over a number of years as their primary logistical vehicles.

Now available to the Private Sector, they continue to excel, and are widely recognised as being some of the best and most resilient heavy-duty trucks available.

Key Features

The SAMAG 120 is a premium quality, 13 ton, 6x4 truck. Powered by the ADE 407* engine (*Mercedes Benz 407 produced under license).

It is an easy-to-maintain, robust truck which is in use in many roles within Construction and Mining companies daily. When all 3 diff locks are actuated on the rear bogey, then all 4 wheels turn in unison providing traction approaching that of a 6x6 truck.

Key Specifications

Engine

- ADE 407 - Water Cooled

Gearbox

- Fuller – 9 Speed Synchromesh

Rear Axle bogey

- Diff lock on each axle & between axles

Steering

- Power Assisted

Suspension

- Leaf springs

Cab configuration

- Driver + 2 assistants

Tyre size

- 1100 x 20 (Std), 1400 x 20 (Optional)

Specifications are subject to change without prior notice.

- **Re-manufactured in our factory**

The truck is stripped down to the chassis then rebuilt using only new or reconditioned components.

- **Proven across Southern Africa**

The SAMAG 120 can carry a payload of around 13 tons, and is in use in many roles across Southern Africa.

- **Multiple applications**

The most common load bodies fitted are: Tanker, Tipper, Drop-side (with or without Crane), Drill Rig & Compressor.

- **Amazing traction for a 6x4 truck**

When the 3 diff locks are actuated on the rear bogey then all 4 rear wheels turn in unison, making it perform like an AWD.

- **Supply of spares guaranteed**

Our “in-house” spares division “**Black & White Truck Spares cc**” specialises in the supply of all spares for the SAMIL / SAKOM / SAMAG family of trucks.
